welcome

Dear Reader

McNo provides mail-club members with information on available VideoCD and CD-i titles, and sources discs on members' behalf. To register simply call or write to us now. There is no obligation to buy, though you will receive occasional mailers keeping you up-to-date.

Owners of VideoCD playback systems such as CD-i, Sega Saturn (with MPEG card), PCs equipped with MPEG software and some DVD players can play the VideoCD movies, music videos, karaoke videocds and educational videos that are listed in the following pages. And CD-i users can play any of the games and reference discs in the special CD-i section on pages 32 - 44.

Over the coming years we expect growth in the use of DVD as a new video playback system. Meantime, VideoCD and CD-i offer great value and guaranteed working.

Assuring you of our best attentions

A J Macnaught - Managing Director
